SUMMARY

Senior/Lead Flutter Engineer with 6+ years of experience delivering cross-platform mobile applications (iOS, Android, Web) across trading, banking, e-commerce, and Ed-Tech domains. Proven full-lifecycle ownership from architecture and complex UI implementation through performance optimization, product instrumentation (crash analytics, CRM, deeplinking, A/B testing), and client-facing technical leadership. Track record of mentoring junior engineers and driving Spec Driven Development to translate product specifications and development guidelines into production-ready code. Early adopter of AI-driven SDLC practices, using Claude Code, GitHub Copilot, and Obsidian for specification management to accelerate delivery.

CORE SKILLS

Languages & Frameworks: Flutter, Dart, Kotlin, Golang

Platforms: iOS, Android, Web

APIs & Data: REST, GraphQL, SQL

Mobile Engineering: App Architecture, Performance Optimization, Crash Analytics, Deeplinking, CRM Integration, A/B Testing, Fastlane

AI-Driven SDLC: Claude Code, GitHub Copilot, Obsidian (Spec Management), Spec Driven Development, AI-Assisted Code Generation

Practices & Tools: Agile, Git, CI/CD, Technical Leadership, Client Consulting, Mentoring

EXPERIENCE

Lead Mobile Engineer — KJBN Labs

Feb 2026 – Apr 2026

- Led development of an offline-first Flutter application, owning technical decisions end-to-end.
- Established an AI-driven SDLC on the project: used Claude Code for spec-to-code generation, Obsidian to author and maintain structured product/engineering specs, and GitHub Copilot for in-editor code assistance.
- Applied Spec Driven Development to translate product specifications and development guidelines into reusable, production-ready Flutter packages.

Consultant, Mobile Engineer — [Thoughtworks Technologies India](#)

May 2024 – Jan 2026

- Led Flutter development across concurrent client engagements in trading, banking, and e-commerce, acting as the primary technical point of contact.
- Drove client discussions on project architecture, technical design, and implementation approach.
- Coordinated performance optimization efforts across Flutter-based mobile (iOS/Android) and web applications.

Senior Consultant, Mobile Engineer — NetAnalytiks

Jun 2023 – May 2024

- Engaged on contract with [Thoughtworks Technologies India](#), continuing Flutter delivery work across client projects.

Software Engineer — Anchorage Technologies ([Tickertape](#))

Feb 2022 – Apr 2023

- Core member of the Flutter team building the iOS application for Tickertape, an asset analysis platform.
- Contributed to early architecture setup and implemented complex UI features, including the Stock Screener and interactive graphing components.
- Optimized existing Flutter implementations for performance.

- Participated in the technical hiring process, interviewing and evaluating mobile engineering candidates.

Software Engineer — Iypods ([SpeakX](#), formerly Yellow Class)

Oct 2020 – Jan 2022

- First hire on the mobile team; owned low-level architecture and implementation decisions for a Flutter-based kids' Ed-Tech application.
- Built the product from the ground up for iOS and Android under strict compliance and safety constraints for children's applications.
- Mentored interns and junior engineers, including leading code reviews.
- Delivered an app that surpassed 500K downloads on the Play Store with a 4.5 average rating.

Software Engineer — Untangle Strategy

Jul 2019 – Oct 2020

- Developed front-end features for web and mobile applications using React.js and Flutter.
- Partnered with Essar Steel (AMNS) technical teams to build in-house applications.

EDUCATION

Bachelor of Technology (BTech) — APJ Abdul Kalam Technical University, Kerala

Jul 2015 – Jul 2019

PROJECTS

- [Tale](#) — Hobby project published on the Play Store.
- E-commerce application built with Flutter.
- Banking application built with Flutter.
- Enterprise Modernization Project — Operations Portal (Flutter/Web).
- [Tickertape](#) — Asset analysis platform (Flutter, iOS).
- Yellow Class — Ed-Tech application (Flutter, iOS/Android).
